

Public Relations

The President of the Library Board of Trustees is the official spokesperson for the Board. The Executive Director is the official spokesperson for the Library.

The Community Relations Officer serves as the media liaison for the Board and the Library Administration. Whenever official media statements are required pertaining to Library policies, procedures, programs, services, or positions on Library-related issues, the Community Relations Officer is responsible for all contacts with local newspapers, magazines, professional journals, radio, and television stations. The Community Relations Officer with the approval of the Executive Director determines who represents the Library to media on a particular topic.
