

**INTER/INTRA LIBRARY LOAN** Interlibrary loan is a method of borrowing items from another library that Rockford Public Library does not own. Items may come from a neighboring library or from libraries across the country. Our interlibrary loan librarians screen each request to determine the fastest and most economical way to get the items our customers need. Customers are limited to five (5) interlibrary loan requests in process at any time, including requests made as well as materials received and checked out.

Rockford Public Library is happy to serve residents of all library districts who visit our facilities. Interlibrary loan eligibility is limited to Rockford Public Library cardholders who directly pay for those services either through local property taxes or nonresident card fees.

Residents from area library districts are directed to contact their home libraries for their interlibrary loan needs. All Illinois public libraries offer interlibrary loan services to their district residents.
