

+SEE OLD LUTHERAN records For Wisconsin,  
N.Y. and MINN. by Martin Wm. Johnson. 13 ITEMS in one.

1855 Wheatfield Twp., Niagara Co., N.Y. State Census.

Part A. is the first election district. *38 pages.*

Part B. is the second election district. *56 pages.*

Each done by a different census taker.

Watch out for errors in census & translations.

Read coments in back of each part A. & B. first.

Original census film copy is at Niagara co. Historians  
office in Lockport, N.Y.. I am indebted to Eugene W. Camann  
for making this film available to descendants of Niagara Co..  
There is a card index, which may vary from my translations,  
at Historians office.

I Translated & typed this township census this July 1989.

Some surname variations noted on left or right side of page  
are from Iwans 1943 immigration lists. (*= Surname corrections*).

The other Townships & census years need to be typed up &  
made available in Book form to descendants.

Court house birth, marriage, death, probate, naturalization  
indexes & records need to be made available also.

Church records that have birth, death, marriage, confirmation  
& old membership lists in the old church record books, usually  
give villages in Europe born in & the parents full names.

These church records need to <sup>be</sup> microfilmed before they fade away  
like the state censuses were before they filmed them. These  
records need to be made available to descendants & researchers  
in book & microfilm form, at various libraries & historical  
societies.

There were two lutheran churches in this district and one Methodist Episcopal church.

Be sure to recheck any entries that look like they may be the one your searching. This Daniel C. Jacobs the census taker wrote most of the Prussian German names wrong. Even the counties of New York were spelled wrong. so watch out for numerous errors. Even errors on my translation. Some of the faded ink was hard to read. See the 1850, 1860, 1865, 1870, 1875, 1880 etc.. censuses. They need to be typed up. This census taker sometimes put down what relationship a person was to the person giving information and not the head of household. many of the germans had several given names. They usually went by the one closest to their surname in a baptism. Example = Johann Fredrick William Johnson. Some names sound like male names or spellings & are not. Some are female sounding male-<sup>names.</sup>

These spelling errors are similar to the Old Lutheran spelling errors in the 1850 Wisconsin censuses.

This last (2nd district) is different than the first election district census enclosed.

Most of the spelling errors in census I did not correct. I did change Ingländ, a country, too England on a few.

Daniel C. Jacobs did not write Niagara Co., N.Y. as a birth place on any entries. He left line blank. Several blank birth place lines don't match the no. of years the person was in the Twp., so they need to be checked on other censuses.

As in most censuses, court house records & some church records & obituaries, many names & places are spelled the way they were pronounced. Some entries are in German script. The capitol letters most often translated wrong are - W & M. Y & G. F & T & P. N & V. O & A, R & B. I & J. S & L. The small letters most often translated wrong are r & n & s. i & e & c. f & s & t. h & k. l & t. m & n & w. z & y. P & f. Plus any vowel letter can be wrong or omitted.

It's too bad Daniel C. Jacobs was not more familiar with the Prussian surnames.
