PREFACE.

We present to our patrons our first Directory of Watertown, confident that it will be found as nearly complete as a thorough and systematic canvass could make it.

Errors will occur in collecting and arranging such a large list of names.

Great care has been taken to obtain the name of every person who should be represented in a Directory, and we presume the few errors which appear in the following pages will be overlooked.

The General Directory contains about 2500 names, which, presuming one-fourth of the citizens to have been taken, shows a population of 10,000 in the City.

We return to our patrons our sincere acknowledgments for the support they have given the undertaking.
