Helping You With Your Live Stock

The Federal Reserve Banking System, established by the government, stands back of the Farmer. Through our membership in it we can help our patrons carry live stock which they are raising or fattening for future sales.

Farmers' notes, with not over six months to run, given for raising or carrying live stock can be rediscounted by us with our Federal Reserve Bank, thereby increasing our ability to extend to our patrons such help as they may need.

If you contemplate raising or fattening live stock for market come in and talk with us. We can help you.
